DA1000

Digital Audio Player

The **DA1000** is actually a 5-in-1 device. It is a MP3/WMA Player, Digital Voice Recorder, FM Tuner, Line-In Recorder, and USB Flash Memory Drive.

When used as a MP3 player or a radio, the **DA1000** excels by providing superb sound quality.   Plus, you can select the optimal equalizer from Normal, Bass/treble, Rock,, Classic, and POP.

In addition to MP3/WMA and radio playback, the **DA1000** has a voice recorder. This comes in handy in a pinch for recording lectures or interviews.

The FM Tuner is convenient for customers when traveling to another cities to find out what is going on locally or for those who just like to listen to new music.

With the Line-In Recorder, moreover, you can record from a number of sources and it has digital input and output plugs.

Finally, the **DA1000** can be used as a USB flash disk for storing any kind of data file. The USB connection means you can copy files to/from your computer.

The **DA1000** features true plug & play; simply plug it into any available USB port and the computer will automatically detect it as two removable drives. The **DA1000** does not need any software.   It is compatible with IBM PC / compatible desktop and laptop computers with a USB port.
